*"OFF MARKET means confidentiality, it means not showing off, not flaunting success, keeping a low profile and not attracting attention. And if we aren't so much known globally, it means we've done our job well so far."
(ANTONIO BIANCHINI).*

Domus Italia Prestige is among the leading companies in real estate services, driven by a strong entrepreneurial spirit. Our core business leads us to operate in the upper segment of the hotel real estate market, with prestigious assets, all strictly OFF MARKET.

We are "Gold Members of Monte Napoleone Business Center," where our Milan office is located on Via Monte Napoleone (the fourth most expensive street in the world).

Direct relations, clear rules and procedures, real prices and no compromise, we act as a sole intermediary between seller and buyer. Again, organization, professionalism, competence, reliability and honesty are just some of the characteristics that distinguish us.

Multinational corporations, pension funds, investment funds, major international hotel brands, sovereign wealth funds, banks, insurance companies, family offices of global importance, technology companies, our buyers come from many different sectors .
